

**Legendary Wills And Trusts Group**

Protecting your loved ones

A Simple Straight-forward and Easy **Asset Protection**  
System that Guarantees to  
“Speak for You When You Can’t Speak for Yourself”

Evane Abbassi, the Author  
BS, JD, LLM

Evane has a Juris Doctoral Degree and holds  
an LLM degree in taxation, trust and estate planning.  
This is a degree that only 6% of all attorneys have in the US.  
She works as a Trustee for some of the wealthiest families in  
America and as a Mediator of trust and estate probations in  
California

**At Last: All the complicated and time-consuming tasks  
associated with wills and trust simplified and customized for  
YOU: An easy-to-use system designed by one of the world’s top  
experts on wills and trusts.**

Dear Reader:

Who will speak for you when you can't speak for yourself? That's the question I ask all my clients. So, I'm asking you right up front. Because the answer to that question is perhaps the most important answer you will ever give in this life.

You see, all of us, regardless of our wealth, status, or position in society, are concerned about what will happen to the people we love...and the assets we've worked so hard for...when we are no longer there to speak for ourselves.

You. Me. All of us care about these things....

## **So, why is it that 80% of all Americans die without a will?**

Why is it that 80% of all Americans die and let **others** speak for them after they are gone...

(And by “others” I, of course, mean “the government”).

Why?

### **Well, YOU Have Probably Avoided Preparing Your Will or Trust for One or All of These Reasons...**

- Let’s face it, It’s not fun to think about this subject
- You think you have to deal with a lawyer to take care of this...people don’t like attorneys.
- You think it will be expensive
- You think it will be boring
- You think it will be time-consuming

Well, you’re on this page. So you’ve obviously gotten past that first hurdle, if only temporarily. And the other 5 excuses? Well, honestly, until recently, those excuses all had one thing in common...

**They were all valid**

## Testimonials:

Hi Evane,

I just want to thank you for your awesome software. It is incredible.

I spent hours to do my own once and it didn't look or sound professional. It was a very painful work . With your "Legendary will and Trusts software", **I am now able to create and submit my documents with one click.** I truly believe every family should have a copy of this amazing software.

Thank you  
Song ChangXiang,

Abderdeen, New Jersey

Hi,

I downloaded your software, within half an hour I had figured out how to use the program (trust me on this, I'm slow at this stuff), followed your instructions and printed my will and trust and power attorney. Within another half an hour I was done with the rest of the documents and had my health care and final arrangements and all other related documents finished and printed! In less than an hour I took care of all my estate planning documents.

**I was worried for YEARS about these documents and now I have a peace of mind.** Thank you, thank you, thank you.

Bob from Calgary, Canada

PS. Your customer service is phenomenal, I emailed you some questions and you answered within an hour, THIS IS TRULY FANTASTIC!

**Legendary Wills And Trusts is by far one of the best estate planning tools on the internet** and can, in my opinion, both save time and money for everyone. This is a totally amazing software and I could create mine and my wife's wills and trusts in a very short time. There are other software and companies that claim to be very effective, however they can not be used as easily or as quickly, I have used them all and believe me nothing can be compared to Legendary Wills and trusts cd.

Codrut Turcanu, Los Angeles, California

Hey, I just tried the demo and I have to say your product is off the hook! **It's awesome, everything is automatic.** It only took about 15 minutes for me to do my will! And another 20 minutes to create my trust and an extra trust for my kids! How Awesome is that!! Thanks for making this possible for me.

Henry Tyler, San Jose, California

This is amazing. I started on doing my will and the software asked me some basic questions, before I knew it I was done! Couldn't believe my eyes, when this comprehensive document was printed! I was so excited that I cried, because I had planned for a long time to do this and keep my family safe after I die, but I had never come across doing it because of the expense and other considerations. I am so grateful to you.

Evane has put together a really powerful program to help us all.

Emma Swanson, New York, New York

Clearly I'm sold, I use it, and will never stop until they pry this software from my cold, dead fingers. If anyone knows of something better, please let me know; I am more than willing to have a look! For now, however, **what took months now takes minutes**, and what was the 1st most time-consuming task I could imagine, **now takes so little time I don't even give it much thought.** I have helped some of my friends to create their own documents and legacy! How cool is that?

Emanuel Bakhshandeh, Santa Barbara, California

Getting your most important documents taken care of was often a boring, expensive, time-consuming process...that involved attorneys.

And after many years of helping hundreds of families through the “final arrangements” process I’ve noticed one thing:

No amount of pestering, persuading, convincing, cajoling, or guilt-tripping will ever change the fact that Americans just don’t want to deal with this...unless something happens to change the process....radically.

So, I decided to make that “radical” change for you.

**I decided to eliminate ALL (but one) of the objections to taking care of your most important personal business.**

**I can’t make the subject matter more pleasant. But here’s what I can do...**

- I can perform an “attorney-ectomy” and remove all the lawyers from the process
- I can lower the expense of preparing a rock-solid will or trust by as much as 99%...how does \$99 sound?
- I can shorten the time required to from weeks or months...down to less than an hour
- And I can transform the process from a boring slog through mountains of paperwork ... to a breezy walk through a simple a CD ROM.

How did I do this?

Well, I took my years of experience in this field, years spent counseling some of the wealthiest families in America...and some of the most desperate...through this process....then I spent over 5,000 hours designing a CD ROM system that will...replace me.

That’s right, I took all the things that I would normally do for a client... and put them in a simple, step-by-step system that anyone can use.

**Here's what I used to do...that the Legendary Wills and Trusts a Wills and Trusts system now does for you...**

-Analyze your personal finances...this was something many of my clients were embarrassed to share with an "outsider" but a vital step in insuring you have the right documents in place

-Determine **which documents** you need for your estate planning, including but not limited to

- Will
- Revocable Living Trust
- final arrangement documents (Directing executives, funeral details and ceremonies...)
- Pet trust
- Advanced Health Care Directive
- Durable Power of Attorney

-Make sure all the **rules and regulations** for your particular state of residence are followed. Often this is the most time-consuming part of the process. Now it's all automated for you...and guaranteed.

All these were done to make you say that Estate Planning is a doable task and make you not to buy into that kind of limited thinking.

What it means is **YOU must adapt** as Estate Planning challenges arise.

You Have to use new strategies and better versions of existing strategies. You Have to find out what works and make it work for you and your family.

Don't worry, I've done all of the homework for you!

**I've Invested YEARS of My Time So You Don't Have To Waste A Second Of Yours!**

During the **past few years** I have spent over 5000 hours and have been carefully researching and testing a wide variety of estate planning options and strategies for **getting results** from my CD ROM.

It's been **grueling work**, to say the least.

I mean, it's just a lot of work – tedious work – trying to do research and conducting tests and looking for ways to improve strategies that would improve some one's life and after life wishes. **Trial and error aren't fun, but they sure are effective.**

Evane,

I have purchased your wills and trusts software & I am thrilled after using it for few days. **It's so damn simple to use. and it runs on autopilot.** It took me almost two hours to finish creating all different documents in the CD. I even made a trust for my dog, Rusty, to protect him after I am not around, he is part of family! I have been sleeping so soundly lately! Your CD **is truly a dream come true for people who care to protect their families.**

David Struss, Washington, D.C.

Hey Evane,

I must say that I'm amazed that your software actually does what you Said! **I've tried 2 other similar software programs and by FAR yours blows them away!** thanks! Evane, you've got me as a customer for life!

Warmly,

Bob Green, New York, New York

I've always been wary of automated solutions for things, even legal documents. I don't like to hand control over to a piece of software unless it's going to do exactly what I would do but quicker. **And that's what Legendary Wills and Trusts does...it takes your information and make them into legal documents that are made highly professionally.** The only difference is that your CD does everything so quickly that you would not even believe your own eyes!

We're using it ourselves and we're recommending it as the perfect solution to everyone we know....what more can I say!

Beverly Miller, San Francisco, California

I wanted to wait a couple of weeks to see how other people react to your CD and before I purchased it. **To my amazement I was pleasantly surprised. Some of my friends and family members called me and without having any knowledge that I knew anything about your CD, asked me to purchase it and use it right away. For the price you are asking its a steal.**

Thanks for all your help getting it set up. Awesome customer service. I tried other submitters and had questions about setting theirs up and got no response when I emailed them. Great job Legendary Wills and Trusts!! Truly!

Andrea A. Torresala, Santa Cruz, California

I have absolutely no hesitation in highly recommending Legendary Wills and Trusts CD to anyone thinking about making their wills and trusts.

The product is **continuously updated and refreshed regularly.** And the after-sales service is yet another added bonus. Any queries I have had about the product have been dealt with both courteously and promptly.

So thank you to Evane and her team. Without your wonderful product, **I whole-heartedly believe that I wouldn't have had my documents made yet, my survivors would have a lot less money in their pocket!**

**Julian Merril, Honolulu, Hawaii**

I love the Legendary Wills and Trusts CD program! It took me a Saturday morning to do all my documents and do the same for my wife. **This is a true blessing.** And its updated like clockwork.

James D. Johnson, Ohio, U.S.

In the process of this extensive research and testing, I found many **strategies that anyone can use** to make their Will and Trust without the help and interference of anyone else.

In other words **YOU BECOME AN INSTANT EXPERT IN ESTATE PLANNING USING MY CD Rom.**

I'll be honest with you, I almost decided NOT to share this CD Publicly. The last thing I want to do was create more competition.

*Heck, that was one of the primary reasons I started doing the research in the first place!*

But, after some serious arm-twisting and thinking, I have decided to go public and I have compiled all of the tools and knowledge and law that you need in the **Legendary Wills and Trusts CD.**

So, you can spend the rest of your life having peace of mind that your family has been taken care of and your Beneficiaries' lives after you are secured. (and I assure you if you don't use this CD to make your wishes known for after you are gone, your loved ones will have to spend thousands to fill the gap ) ...

**So, why would I create a product that eliminates my job?**

Because I'm just so passionate about this subject.

Let me tell you a little about me...

First, the boring but necessary credentials: I have a Jurist Doctor Degree in law and a post doctoral LLM degree (taxation, trust and estate planning). Only 6% of US lawyers hold this degree.

I've been and still am the Trustee for the most prominent families in American society for the past several years and I work as a Mediator in California, where Wills and Trust and estate probations are the most common cases.

But, while my experience and education prove I KNOW what I'm doing, I'd like you to know WHY I've created **Legendary Wills and Trusts system**.

My *heart* for this project...It's because I don't want your family to go through some of the horror stories I've seen clients go through.

**Don't Let Any of these Heart-Breaking Scenes Happen to You...**

- Your loved ones fighting and pulling out their hair to claim what's rightfully theirs.
- Your beneficiaries wasting most of your estate on probate fees just to claim their money.
- Creditors slapping liens on your estate to prevent your survivors from getting at their inheritance.
- Your children ending up in foster homes. I've seen it happen even to the children of wealthy parents!
- Your funeral and burial arrangements disrespected or ignored.
- Your cherished pets forgotten and neglected and most of the times put to sleep.

In fact, a dear friend of mine, Mohtaram died recently and her family had made arrangements to bury her. I almost choked, because Mohtaram had told me many times that she wanted to be cremated. She said she was afraid of being lonely in a dark place!

I pleaded with her family not to bury her. Can you imagine how hard it is to plead and argue with a family who is grieving? I tried reasoning with them...then yelling...then crying...finally I offered to pay for her cremation and that's when they finally relented!

Had Mohtaram taken 10 minutes or so to fill out a few final arrangement papers, all of these could have been avoided.

So, I've created a system that makes sure none of these incidents will happen to you.

Everything You'll Need in a Simple CD...

- Will
  - Living Revocable Trust
  - Durable Power of Attorney
  - Health Care Directive
  - Pet Trust
  - Certificate of Trust
  - Executor Checklist
  - Affidavit of Residence
  - Letter to the Successor Trustee
  - Final Arrangements
  - General Notice of Death
- And Just Look How Simple It Is to Use!**

All this for just \$99
